REMARKS

Claims 1-18 are pending in the application. Applicants appreciate the Examiner's indication of allowable subject matter in Claims 17 and 18.

Double Patenting Rejection

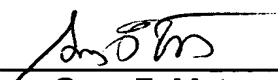

Claims 1-16 stand rejected under the judicially created doctrine of obviousness-type double patenting over Claims 1-16 of U.S. Patent No. 6,590,066 to Roesler.

Applicants submit herewith a Terminal Disclaimer under 37 C.F.R. § 1.321, which overcomes the double patenting rejection. Therefore, the double patenting rejection should be withdrawn.

CONCLUSION

Applicants submit that the present application is in condition for allowance. Accordingly, reconsideration and a Notice of Allowance are respectfully requested for Claims 1-18. If the Examiner is of the opinion that the present application is in condition for other than allowance, he is requested to contact the Applicants' attorney at the telephone number given below so that additional changes to the claims may be discussed.

Respectfully submitted,

By
